

## COMMERCIAL AVIATION

CLEAN AT WORK, AT HOME, AND ON THE GO.

Commercial aviation. Suddenly it's a highly competitive industry. Customers are getting pickier, and they're writing nasty reviews. Their biggest complaint? Dirty, poorly maintained cabins. Smudged, unhygienic entertainment screens. Filthy cabin windows. So airlines have responded. They're upping their game, and iCloth wipes have become an indispensable part of an enhanced between-flight maintenance routine for many of North America's major airlines. They're restoring cabins to customer-happy conditions - for over 25 thousand flights per day! And iCloth wipes are great for the flight deck too. A quick wipe, and everything gleams – your HUD's, your flight deck displays, your EFB's. Is there a plane flying overhead right now? You can bet there are iCloth wipes aboard. It's all beautiful with iCloth.

✦  
We make better wipes,  
because the future of technology  
has your fingerprints all over it.
