

HOSPITALITY

CLEAN AT WORK, AT HOME, AND ON THE GO.

✦ ✦
We make better wipes,
because the future of technology
has your fingerprints all over it.

You're a proud restaurant owner. And you're determined to be the hottest spot in town. You've invested in the latest POS touchscreen technology, your waiters arrive at the table with cutting-edge mobile ordering tablets, and your customers browse interactive digital menus. It's all very cool. Only one problem. You're finding foie gras smudged on your digital menus, and the POS touchscreen and mobile ordering system look like the fingerprint gallery at the FBI! Nothing says uncool like filthy touchscreens. Enter iCloth: A one-step wipe that blends seamlessly into rush hour madness, and your screens sparkle once again! Hotels are increasingly on board, and restaurants are learning fast what the aviation industry has known for some time - iCloth keeps your optics clear and flying high.
