

## MILITARY/AIRFORCE

CLEAN AT WORK, AT HOME, AND ON THE GO.

✦ ✦  
We make better wipes,  
because the future of technology  
has your fingerprints all over it.

There's a long tradition of disciplined equipment care in the military. iCloth brings that tradition into the 21st century. In this line of business, helmet visors must provide full vision. Computer displays and NAV systems must be squeaky clean and clear. HUD's must be fully transparent. And radar systems have to be 100% clean to be read. iCloth is the secret weapon for many top military organizations. It's an individually packaged, perfectly moistened wipe that can do all these jobs in one quick session. Keep one in your flight kit, and maintain the tradition.
